

Flourishing Together, Rooted in Love

Bad Weather Procedure

We endeavour to remain open during snowy periods. Many of our staff members live within walking distance of the school and so we are able to operate with the correct level of adult supervision in most cases. However if it is deemed unsafe to open school the following procedure is applied.

The Headteacher will close the school having taken advice from members of staff who live nearby. The decision will be made by 7am. Radio Cumbria will be notified. Also, parents can log onto Westmorland and Furness county website . The School Administrator will also text all parents as soon as is practicably possible.
